

Kindergarten Readiness Checklist

This checklist is designed to help you prepare your child for school.

Before you begin, remember:

- You are your child's first and most important teacher.
- Each day your child is learning as you talk, play and work together.
- Readiness is a combination of age, individual growth, and experience.
- Your child will develop at his or her own rate; however, your involvement will promote readiness.
- Your child will learn by doing.
- Remember that play is an essential part of learning.

The checklist is designed to help you look at your child's physical, social, emotional and cognitive development. The checklist contains items that are important to your child's success in Kindergarten. It is designed for four and five year olds.

There is no one quality or skill that children need to do well in Kindergarten; a combination of factors contributes to school success. School readiness also depends upon the "match" between children's skills and knowledge and the expectations of the school.

KINDERGARTEN is a significant step on the path of education. A little consideration and planning on your part can make this step a rewarding and successful time for your child.

Part 1: Concept Development

Does your child . . .

Criteria	Yes	No	Developing (notes)
